Atrivant 80, sliding sash accessory set for right-closing systems, with COMFORT STOP and PERFECT CLOSE, for high ceiling track

Material: several materials
Finish: aluminium colour
Glass thickness: 8 / 10 mm
Sales unit (SU): St
Unit package: 1.00
Carrying capacity: 80 kg/pair

for high ceiling track, contains: 2 x runner shoe adapters with runner carriage and SOFT CATCH catch, closing on the left, 2 x COMFORT STOP and PERFECT CLOSE damping and retraction systems, 2 x end stops with activators, 1 x anti-unhinging set, 1 x centring set / Note: Required once per sliding sash. Minimum sash width 610 mm. Note on determining "right-closing" and "left-closing": Please stand in front of the foremost sliding sash, i.e. the sliding sash in the foremost track (so-called active sash) and assess from this perspective where it must be pushed to close the system. If the active leaf closes to the right, it is a right-closing system. If it closes to the left, it is a left-closing system
